**What skills do you possess that are particularly applicable to the position?**

I am delighted to be nominated to serve on the SCA Board as Treasurer. I am detail-oriented, accountable, and enjoy troubleshooting and finding creative solutions to unique problems. As Local Arrangements Co-chair for several annual meetings, I have experience managing the LAC budget and working closely with the SCA treasurer to ensure the LAC budget and SCA budget match. Prior to entering the library and archival profession, I managed budgets for arts small organizations and created budgets for project and operating grant proposals. I believe my previous experience will help shape SCA's budget and ensure the organization's financial health.

**Please detail your efforts to integrate equity and inclusion practices into your work and any plans you may have for this as Treasurer.**

My efforts to integrate equity and inclusion in my profession includes participating in SFSU's Special Collections DEI Committee, working with my colleagues to provide background and historical context to our collections, remediate harmful language in our archival finding aids, and support our users by improving access to our digital collections. I am also looking at our current primary source instruction and thinking of ways to help students interact with a somewhat unmediated history and prepare them for the unexpected or shocking materials they might encounter.

As treasurer, I hope to also address equity issues in the profession. Early in my career, one of the major barriers to participating in professional organizations has been a lack of resources. An

immediate concern for me is addressing member's needs, particularly when it comes to the affordability of membership and/or participation in SCA programs. Finally, I will advocate for a more diverse representation on the Board.
